ASC/N9813: Manage work and resources

Description

This NOS unit is about implementing safety, planning work, adopting sustainable practices for optimising use of resources.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Ensure work as per quality standards
- Material/energy/electricity conservation practices
- Effective waste management/recycling practices
- Ensure a healthy and hygienic workplace

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

PC1. ensure that the team complies with organisation’s health, safety, security policies and procedures

PC2. identify the risks and hazards associated with work activities, their causes and prevention as per organisation's policy

PC3. encourage team to report any identified breaches in health, safety, and security policies and procedures to the designated person

Ensure work as per quality standards

To be competent, the user/individual on the job must be able to:

PC4. ensure work area is kept clean and tidy

PC5. identify individual work requirements and provide necessary instructions to the team

PC6. ensure the team works as per the assigned and agreed requirements

PC7. identify work which fails the requirements, specified quality standards and ensure timely corrective action is taken

PC8. implement ways and guide the team to manage time, resources and cost effectively

PC9. train the team on skill level advancement to develop expertise in their work

PC10. ensure that the team understands accountability for timely completion of tasks

PC11. analyse and validate the problem accurately and communicate different possible solutions to the problem

Material/energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC12. identify ways to optimize usage of electricity/other source of energy and material including water in various tasks/activities/processes

PC13. ensure that the team uses resources in a responsible manner

PC14. ensure that the team periodically checks for spills/leakages around the work area and take corrective actions or escalate to appropriate authority if unable to rectify

PC15. supervise team to carry out routine cleaning of tools, machine and equipment

PC16. ensure that the team periodically checks if the equipment/machines are maintained and functioning normally before commencing work and take corrective action wherever required

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC17. identify recyclable, non-recyclable and hazardous waste generated

PC18. ensure the team segregates waste into different categories

PC19. ensure proper disposal of non-recyclable waste

PC20. ensure recyclable and reusable material is deposited at identified location

PC21. ensure the team follows processes specified for disposal of hazardous waste

Ensure a healthy and hygienic workplace

To be competent, the user/individual on the job must be able to:

PC22. ensure workplace, equipment, restrooms etc. are sanitized regularly

PC23. promote awareness about hygiene and sanitation regulations

PC24. check availability of running water, hand wash and alcohol-based sanitizers at workplace

PC25. support employees to cope with stress, anxiety etc.

PC26. wear and dispose PPEs regularly and appropriately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. different types of health and safety hazards that can be found in the workplace, risks and threats based on the nature of work

KU2. company defined workplace hazards and rules/regulation for maintaining health, safety and security at workplace

KU3. breaches in health, safety and security as well as procedures to report the same

KU4. workshop layout with electrical, hydraulic and thermal equipment used

KU5. the organisation's emergency procedures for different emergency situations and the importance of following the same

KU6. ways of time and cost management

KU7. ways to manage efficient utilisation of energy, material and water in the process

KU8. ways to recognize common electrical problems and common practices of conserving electricity

KU9. usage of different colours of dustbins and categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics

KU10. organisations procedures for minimizing waste

KU11. waste management and methods of waste disposal

KU12. common sources of pollution and ways to minimize it

KU13. different ways for skill level advancement to develop expertise

KU14. key performance indicators for the new tasks
KU15. timelines and goals set by the manager
KU16. importance of quality and timely delivery of the product/service
KU17. organisation's policies to maintain personal health and hygiene at workplace
KU18. significance of greening

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read instructions/guidelines/procedures
GS2. listen effectively and orally communicate information
GS3. ask for clarification and advice from the concerned person
GS4. maintain positive and effective relationships with colleagues and customers
GS5. evaluate the possible solution(s) to the problem
GS6. complete written work with attention to detail
GS7. modify work practices to improve them
GS8. work with supervisors/team members to carry out work related tasks
GS9. complete tasks efficiently and accurately within stipulated time
GS10. make timely decisions for efficient utilization of resources
GS11. be punctual and utilize time
GS12. evaluate strategies to maintain, enhance or reduce the intensity of heightened emotional response

To be competent, the user/individual on the job must be able to:

PC18. communicate and behave appropriately with all genders and PwD

PC19. escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC20. identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.

PC21. carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook

PC22. identify common components of salary and compute income, expenses, taxes, investments etc

PC23. identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC24. operate digital devices and use their features and applications securely and safely

PC25. carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.

PC26. display responsible online behaviour while using various social media platforms

PC27. create a personal email account, send and process received messages as per requirement

PC28. carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications

PC29. utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC30. identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research

PC31. develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion

PC32. identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

PC33. identify different types of customers and ways to communicate with them

PC34. identify and respond to customer requests and needs in a professional manner

PC35. use appropriate tools to collect customer feedback

PC36. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC37. create a professional Curriculum vitae (Résumé)

PC38. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC39. apply to identified job openings using offline /online methods as per requirement

PC40. answer questions politely, with clarity and confidence, during recruitment and selection

PC41. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. components of salary and how to compute income and expenditure
KU12. importance of maintaining safety and security in offline and online financial transactions
KU13. different legal rights and laws
KU14. different types of digital devices and the procedure to operate them safely and securely
KU15. how to create and operate an e- mail account
KU16. use applications such as word processors, spreadsheets etc.
KU17. how to identify business opportunities
KU18. types and needs of customers
KU19. how to apply for a job and prepare for an interview
KU20. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence in English and other languages
GS2. communicate effectively using appropriate language in formal and informal settings
GS3. behave politely and appropriately with all to maintain effective work relationship
GS4. how to work in a virtual mode, using various technological platforms
GS5. perform calculations efficiently
GS6. solve problems effectively
GS7. pay attention to details
GS8. manage time efficiently
GS9. maintain hygiene and sanitization to avoid infection

ASC/N1440: Supervise team and evaluate performance

Description

This NOS is about supervising and evaluating the performance of the team to ensure higher levels of motivation and work completion within the organisational framework.

Scope

The scope covers the following :

- Supervise and evaluate performance of service team
- Complete documentation

Elements and Performance Criteria

Supervise and evaluate performance of service team

To be competent, the user/individual on the job must be able to:

PC1. set goals and targets as per organisational directives for service team

PC2. take quantified measures and create metrics to analyse the performance delivered by team

PC3. set tangible and achievable incentives for team members as per the goals and targets assigned

PC4. ensure and implement strict adherence of all activities performed by team members to organisational guidelines

PC5. monitor and supervise all activities performed by team members to achieve set goals

PC6. evaluate performance of team members on the designed measures and metrics as per the guidelines of the organization

PC7. assist and support reporting team members whenever necessary or applicable

PC8. perform all appraisal related process flow for team members, as per their performance parameters

PC9. ensure proper process flow and implement improvements as per the feedbacks and queries received from team members

Complete documentation

To be competent, the user/individual on the job must be able to:

PC10. document all Key Performance Indicators (KPIs) and metrics of team in the prescribed format of organisation

PC11. handover all the documents and appropriate support measures to human resources department for official records

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Standard Operating Procedures (SOP) of the organisation for appraisals, incentives, promotions and performance evaluation

KU2. operating procedures for query and problem reporting and their redressal in the organisation

KU3. framework and guidelines prescribed by the organisation for query, evaluation, appraisals and problem redressal

KU4. documentation requirements for each procedure carried out as part of job roles and responsibilities

KU5. institutional and professional code of ethics and standards of practice

KU6. documentation requirements for appraisals and other performance evaluations of various subordinate positions

KU7. process flow for performance evaluation, documentation and appraisals related with them

KU8. subordinate and reporting executives problems and queries and documenting it in the organisation's prescribed format

KU9. software or format such as MS Office and Management Information System (MIS) as prescribed by the organization

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and interpret workplace related documentation

GS2. communicate using terms, names, grades and other nomenclature pertaining to the automotive trade

GS3. analyse and apply the information gathered from observation, experience, reasoning or communication to act efficiently

GS4. identify potential workplace problem and take suitable action

GS5. write in English/regional language

ASC/N1319: Manage and supervise vehicle servicing shop operations

Description

This OS unit is about supervising service and repair operations of the vehicles, technicians/aggregates and other assets at the workshop. This unit is also about evaluating performance of all team members and reporting executives.

Scope

The scope covers the following :

- Supervise technicians
- Manage tools, equipment and procurement of spare parts
- Supervise service and repair operations
- Supervise performance of all reporting executives
- Evaluate performance of all reporting executives

Elements and Performance Criteria

Supervise technicians

To be competent, the user/individual on the job must be able to:

PC1. check the new service requests on daily basis and corresponding job cards

PC2. plan work on requests (service or repair) according to the schedule and location of the service (at customer site, on road or in workshop)

PC3. prioritize the service or repair requirements for vehicles reported with respect to technician, spare parts allocation, etc.

PC4. perform workshop load calculation to plan daily operations and their execution in a smooth manner

PC5. allocate technicians/component specialists as per the requirements of the service, maintenance or repair to be done on the vehicle

PC6. test drive a relevant 2/3/4 wheeler vehicle to ensure proper diagnosis by technicians, whenever required

PC7. identify workforce gaps amongst the technicians/component specialists for various workshop bays as per the OEM guidelines or as per industry norms

PC8. identify the training gaps and recommend technicians/component specialists for various trainings to workshop manager

PC9. report to the service manager or GM Service on functioning of the workshop or body shop and on any requirements, challenges and problems faced

PC10. offer support to technicians in case of any requirements/concern

PC11. ensure discipline and adherence of technicians/components specialists to organisation's regulations

Manage tools, equipment and procurement of spare parts

To be competent, the user/individual on the job must be able to:

PC12. manage day to day troubleshooting of various components in coordination with technical specialists

PC13. ensure that the equipment and special tools are used in the correct manner by the technicians/component specialists as per the OEM guidelines

PC14. manage the maintenance of workshop facilities and other tools including fixed equipment

PC15. coordinate with the spare parts manager to ensure supply of materials, parts and other requirements

PC16. ensure procurement of spare parts from the market in the most cost-effective manner which are not available at workshop spares counter and urgently required

PC17. coordinate with warranty processor for replacement of failed parts/aggregates as per the warranty manual and laid down organisational guidelines

Supervise service and repair operations

To be competent, the user/individual on the job must be able to:

PC18. develop solutions for identified faults and issues in the various components/aggregates of the vehicle

PC19. plan the optimised processes at the various bays (including AMC bay, quick repair bay etc.) of the workshop to ensure smooth operations

PC20. ensure that the placement of vehicles on the designated bays are scheduled for quick service/repair

PC21. assist team in resolving critical issues that need urgent action or specialist intervention

PC22. ensure that the complaints, service and repair requirements by the customer is resolved to his/her satisfaction and within estimated time and cost

PC23. manage quality issues in the work done by the technicians and components/aggregate specialists to reduce rework or repeat complaints

PC24. provide appropriate personal protective equipment to all people working on the bays of the workshop and encourage them to use it for promoting a safe working environment

PC25. perform the final inspection after the service and repair operations are completed, in case the quality inspector is unavailable

PC26. prepare all diagnostic and repair reports in coordination with components specialists and technical manager

Supervise performance of all reporting executives

To be competent, the user/individual on the job must be able to:

PC27. set goals and targets as per organisational directives for all reporting executives

PC28. set transparent, tangible and achievable incentives for team as per the goals and targets assigned

PC29. assess additional cost burden as a result of various incentives/rewards/recognition schemes for the team to ensure the overall profitability of the organisation

PC30. ensure and implement strict adherence of all activities performed by team to organisational guidelines

PC31. monitor and supervise all the activities performed by subordinates and ensure optimisation to achieve the set goals

PC32. plan work on daily basis to ensure higher levels of motivation within the team and quality work output with minimum superior guidance

PC33. assist and support reporting executives and help in resolving conflicts

Evaluate performance of all reporting executives

To be competent, the user/individual on the job must be able to:

PC34. create quantified measures and metrics to analyse the performance delivered by subordinates

PC35. evaluate performance of subordinates and reporting executives on the designed measures and metrics as per the guidelines of the organisation

PC36. document all performance indicators and metrics of subordinates in the prescribed format of organisation

PC37. inform team about appraisal related process flow as per respective performance documents

PC38. ensure implementation of proper process flow for feedbacks and queries received from subordinates

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. latest vehicle design, manufacturer, consumer and vehicle legislation, industry and trade practices

KU2. technical specifications of various OEM vehicular products as well as those manufactured by the competitors

KU3. documentation requirements regarding the service, maintenance and repair as specified by the respective OEM

KU4. how to test drive a vehicle for fault diagnosis

KU5. how to train and provide guidance (both technical and soft skills) to the technicians/component specialists in all matters related to the overall automotive service, maintenance and repair of vehicle

KU6. technical aspects communicated through various service circulars

KU7. how to advice the technicians and other component specialists to deal with various technical issues

KU8. basic technology used in the overall functioning of various components/aggregates

KU9. safety requirements for equipment and auto components/aggregates as prescribed by the OEM

KU10. various aspects of tools and equipment used in the workshop

KU11. maintenance requirement in various tools and equipment

KU12. the spares market in the town/area

KU13. warranty policies, insurance policies, etc.

KU14. SOPs of the organisation/dealership for inspection, servicing, repair and replacement of various parts/aggregates mandated by the OEM

KU15. safety and health policies and regulations for the workplace as well as for Automotive trade in general

KU16. SOPs of the organisation for appraisals, incentives, promotions and performance evaluation

KU17. reports to be created as part of roles and responsibilities

KU18. software or format such as MS office and Management Information System (MIS) as prescribed by the organisation

KU19. organisation's incentive policy and procedures
KU20. institutional and professional code of ethics and standards of practice
KU21. framework and guidelines prescribed by the organisation for performance evaluations and appraisals based on the same
KU22. process flow for performance evaluation, documentation and related appraisals
KU23. SOPs for query and problem reporting and their redressal in the organisation
KU24. framework and guidelines prescribed by the organisation for query and problem redressal
KU25. redressal documentation mechanisms available in the organisation

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and interpret workplace documentation
GS2. write in English and at least one regional language
GS3. operate computer to accomplish basic tasks
GS4. acquire new information, knowledge and skills
GS5. flow of information within the organization, whether formal or informal and verbal or written
GS6. interact with others in a professional and courteous manner
GS7. identify achievable goals to develop necessary strategies
GS8. plan work according to the daily operations, required schedules, locations and time management policies
GS9. take appropriate and timely decision as per the urgency of the task
GS10. use logic and reasoning to identify the strengths and weaknesses of the others
GS11. identify all key requirements of the subordinates
GS12. perform crisis management to deal with crises in a manner that minimizes damage

ASC/N1320: Manage and supervise vehicle body repairing shop operations

Description

This OS unit is about supervising service and repair operations of the vehicles body and its aggregates and other assets at the workshop.

Scope

The scope covers the following :

- Supervise technicians
- Manage tools, equipment and procurement of dent and paint repairing material
- Supervise vehicle body service and repair operations
- Supervise performance of all reporting executives
- Evaluate performance of all reporting executives

Elements and Performance Criteria

Supervise technicians

To be competent, the user/individual on the job must be able to:

PC1. check the vehicle body servicing and repairing requests on daily basis and corresponding job cards

PC2. plan work on requests (service or repair) according to the schedule

PC3. prioritize the service or repair requirements for vehicles body reported with respect to technician, spare parts allocation, etc.

PC4. allocate technicians/component specialists as per the requirements of the repairing, denting and painting to be done on the vehicle body

PC5. identify workforce gaps amongst the technicians/component specialists for various workshop bays as per the OEM guidelines or as per industry norms

PC6. identify the training gaps and recommend technicians/component specialists for various trainings to workshop manager

PC7. report to the service manager or GM Service on functioning of the body shop and on any requirements, challenges and problems faced

PC8. offer support to technicians in case of any requirements/concern

PC9. ensure discipline and adherence of technicians/components specialists to organisation’s regulations

Manage tools, equipment and procurement of dent and paint repairing material

To be competent, the user/individual on the job must be able to:

PC10. manage day to day troubleshooting of various components in coordination with technical specialists

PC11. ensure that the equipment and special tools are used in the correct manner by the technicians/component specialists as per the OEM guidelines

PC12. manage the maintenance of workshop facilities and other tools including fixed equipment

PC13. coordinate with the purchase manager to ensure supply of requires painting materials, parts and other requirements

PC14. ensure procurement of paint material and spare parts from the market in the most cost-effective manner which are not available at workshop spares counter and urgently required

Supervise vehicle body service and repair operations

To be competent, the user/individual on the job must be able to:

PC15. plan the optimised processes at the various bays (including AMC bay, quick repair bay etc.) of the workshop to ensure smooth operations

PC16. ensure that the placement of vehicles on the designated bays are scheduled for quick service/repair

PC17. assist team in resolving critical issues that need urgent action or specialist intervention

PC18. ensure that the complaints, service and repair requirements by the customer is resolved to his/her satisfaction and within estimated time and cost

PC19. manage quality issues in the work done by the technicians and components/aggregate specialists to reduce rework or repeat complaints

PC20. perform the final inspection after the service and repair operations are completed, in case the quality inspector is unavailable

Supervise performance of all reporting executives

To be competent, the user/individual on the job must be able to:

PC21. set goals and targets as per organisational directives for all reporting executives

PC22. set transparent, tangible and achievable incentives for team as per the goals and targets assigned

PC23. assess additional cost burden as a result of various incentives/rewards/recognition schemes for the team to ensure the overall profitability of the organisation

PC24. ensure and implement strict adherence of all activities performed by team to organisational guidelines

PC25. monitor and supervise all the activities performed by subordinates and ensure optimisation to achieve the set goals

PC26. plan work on daily basis to ensure higher levels of motivation within the team and quality work output with minimum superior guidance

PC27. assist and support reporting executives and help in resolving conflicts

Evaluate performance of all reporting executives

To be competent, the user/individual on the job must be able to:

PC28. create quantified measures and metrics to analyse the performance delivered by subordinates

PC29. evaluate performance of subordinates and reporting executives on the designed measures and metrics as per the guidelines of the organisation

PC30. document all performance indicators and metrics of subordinates in the prescribed format of organisation

PC31. inform team about appraisal related process flow as per respective performance documents

PC32. ensure implementation of proper process flow for feedbacks and queries received from subordinates

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. latest vehicle design, manufacturer, consumer and vehicle legislation, industry and trade practices

KU2. technical specifications of various OEM vehicular products as well as those manufactured by the competitors

KU3. documentation requirements regarding the service, maintenance and repair as specified by the respective OEM

KU4. how to train and provide guidance (both technical and soft skills) to the technicians/ component specialists in all matters related to the overall denting and painting of vehicle

KU5. technical aspects communicated through various service circulars

KU6. how to advice the technicians and other component specialists to deal with various vehicle body repairing issues

KU7. safety requirements for equipment and auto components/aggregates as prescribed by the OEM

KU8. various aspects of tools and equipment used in the workshop

KU9. maintenance requirement in various tools and equipment

KU10. warranty policies, insurance policies, etc.

KU11. SOPs of the organisation/dealership for inspection, servicing, repair and replacement of various body parts/aggregates mandated by the OEM

KU12. select and use of appropriate paint materials and mixing ingredients (such as sealant, base color, colorants, thinners, polish etc.)

KU13. use of various paint shop equipment and tools (such as brushes, rollers, painting bucket, stirrers, scrapers, spray gun, sandpapers, putty blades, etc.)

KU14. paint spray booth and its maintenance

KU15. paint application methods

KU16. methods of spraying

KU17. different types of industrial paint coatings

KU18. mixing techniques

KU19. admixing VIBGYOR

KU20. optical color mixing

KU21. pre-treatment process

KU22. phosphate coating process

KU23. electro deposition process

KU24. paint preparations - do's and dont's

KU25. paint application parameters

KU26. priming, sealing and painting process

KU27. various painting techniques and methods

KU28. safety and health policies and regulations for the workplace as well as for Automotive trade in general

KU29. SOPs of the organisation for appraisals, incentives, promotions and performance evaluation

KU30. reports to be created as part of roles and responsibilities

KU31. institutional and professional code of ethics and standards of practice

KU32. framework and guidelines prescribed by the organisation for performance evaluations and appraisals based on the same

KU33. process flow for performance evaluation, documentation and related appraisals

KU34. SOPs for query and problem reporting and their redressal in the organisation

KU35. framework and guidelines prescribed by the organisation for query and problem redressal

KU36. redressal documentation mechanisms available in the organisation

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and interpret workplace documentation

GS2. write in English and at least one regional language

GS3. operate computer to accomplish basic tasks

GS4. acquire new information, knowledge and skills

GS5. flow of information within the organization, whether formal or informal and verbal or written

GS6. interact with others in a professional and courteous manner

GS7. identify achievable goals to develop necessary strategies

GS8. plan work according to the daily operations, required schedules, locations and time management policies

GS9. take appropriate and timely decision as per the urgency of the task

GS10. use logic and reasoning to identify the strengths and weaknesses of the others

GS11. identify all key requirements of the subordinates

GS12. perform crisis management to deal with crises in a manner that minimizes damage

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.

2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.

3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.

4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).

5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.

6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(**Please note**: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
