ASC/N9813: Manage work and resources

Description

This NOS unit is about implementing safety, planning work, adopting sustainable practices for optimising use of resources.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Ensure work as per quality standards
- Material/energy/electricity conservation practices
- Effective waste management/recycling practices
- Ensure a healthy and hygienic workplace

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

PC1. ensure that the team complies with organisation’s health, safety, security policies and procedures

PC2. identify the risks and hazards associated with work activities, their causes and prevention as per organisation's policy

PC3. encourage team to report any identified breaches in health, safety, and security policies and procedures to the designated person

Ensure work as per quality standards

To be competent, the user/individual on the job must be able to:

PC4. ensure work area is kept clean and tidy

PC5. identify individual work requirements and provide necessary instructions to the team

PC6. ensure the team works as per the assigned and agreed requirements

PC7. identify work which fails the requirements, specified quality standards and ensure timely corrective action is taken

PC8. implement ways and guide the team to manage time, resources and cost effectively

PC9. train the team on skill level advancement to develop expertise in their work

PC10. ensure that the team understands accountability for timely completion of tasks

PC11. analyse and validate the problem accurately and communicate different possible solutions to the problem

Material/energy/electricity conservation practices

To be competent, the user/individual on the job must be able to:

PC12. identify ways to optimize usage of electricity/other source of energy and material including water in various tasks/activities/processes

PC13. ensure that the team uses resources in a responsible manner

PC14. ensure that the team periodically checks for spills/leakages around the work area and take corrective actions or escalate to appropriate authority if unable to rectify

PC15. supervise team to carry out routine cleaning of tools, machine and equipment

PC16. ensure that the team periodically checks if the equipment/machines are maintained and functioning normally before commencing work and take corrective action wherever required

Effective waste management/recycling practices

To be competent, the user/individual on the job must be able to:

PC17. identify recyclable, non-recyclable and hazardous waste generated

PC18. ensure the team segregates waste into different categories

PC19. ensure proper disposal of non-recyclable waste

PC20. ensure recyclable and reusable material is deposited at identified location

PC21. ensure the team follows processes specified for disposal of hazardous waste

Ensure a healthy and hygienic workplace

To be competent, the user/individual on the job must be able to:

PC22. ensure workplace, equipment, restrooms etc. are sanitized regularly

PC23. promote awareness about hygiene and sanitation regulations

PC24. check availability of running water, hand wash and alcohol-based sanitizers at workplace

PC25. support employees to cope with stress, anxiety etc.

PC26. wear and dispose PPEs regularly and appropriately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. different types of health and safety hazards that can be found in the workplace, risks and threats based on the nature of work

KU2. company defined workplace hazards and rules/regulation for maintaining health, safety and security at workplace

KU3. breaches in health, safety and security as well as procedures to report the same

KU4. workshop layout with electrical, hydraulic and thermal equipment used

KU5. the organisation's emergency procedures for different emergency situations and the importance of following the same

KU6. ways of time and cost management

KU7. ways to manage efficient utilisation of energy, material and water in the process

KU8. ways to recognize common electrical problems and common practices of conserving electricity

KU9. usage of different colours of dustbins and categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics

KU10. organisations procedures for minimizing waste

KU11. waste management and methods of waste disposal

KU12. common sources of pollution and ways to minimize it

KU13. different ways for skill level advancement to develop expertise

KU14. key performance indicators for the new tasks

KU15. timelines and goals set by the manager

KU16. importance of quality and timely delivery of the product/service

KU17. organisation's policies to maintain personal health and hygiene at workplace
KU18. significance of greening

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read instructions/guidelines/procedures
GS2. listen effectively and orally communicate information
GS3. ask for clarification and advice from the concerned person
GS4. maintain positive and effective relationships with colleagues and customers
GS5. evaluate the possible solution(s) to the problem
GS6. complete written work with attention to detail
GS7. modify work practices to improve them
GS8. work with supervisors/team members to carry out work related tasks
GS9. complete tasks efficiently and accurately within stipulated time
GS10. make timely decisions for efficient utilization of resources
GS11. be punctual and utilize time
GS12. evaluate strategies to maintain, enhance or reduce the intensity of heightened emotional response

ASC/N9812: Interact effectively with team, customers and others

Description

This unit is about communicating with team members, superior and others.

Scope

The scope covers the following :

- Communicate effectively with team members
- Interact with superiors
- Respect gender and ability differences

Elements and Performance Criteria

Communicate effectively with team members

To be competent, the user/individual on the job must be able to:

PC1. implement ways to share information with team members in line with organisational requirements

PC2. ensure that work requirements are clearly communicated to the team members through all means including face-to-face, telephonic and written

PC3. manage and co-ordinate with team members to integrate work as per requirements

PC4. work in a way that show respect for all team members and customers

PC5. carry out commitments made to team members and let them know in good time if there is any discrepancy with reasons

PC6. resolve conflicts within the team members at work to achieve smooth workflow

PC7. guide the team members to follow the organisation’s policies and procedures

PC8. ensure team goals are given preference over individual goals

PC9. respect personal space of colleagues and customers

Interact with superiors

To be competent, the user/individual on the job must be able to:

PC10. report progress on job allocated and team performance to the superiors

PC11. escalate problems to superiors that cannot be handled

PC12. train the team members to report completed work and receive feedback on work done

PC13. encourage team members to rectify errors as per feedback and minimize mistakes in future

Respect gender and ability differences

To be competent, the user/individual on the job must be able to:

PC14. ensure team shows sensitivity towards all genders and PwD

PC15. adjust communication styles to reflect gender sensitivity and sensitivity towards person with disability

PC16. help PwD team members to overcome the challenges, if asked

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the importance of effective communication and establishing good working relationships with team members and superiors
KU2. different methods of communication as per the circumstances
KU3. gender based concepts, issues and legislation
KU4. organisation standards and guidelines to be followed for PwD
KU5. rights and duties at workplace with respect to PwD
KU6. organisation policies and procedures pertaining to written and verbal communication

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read safety instructions/guidelines
GS2. modify work practices to improve them
GS3. work with supervisors/team members to carry out work related tasks
GS4. complete tasks efficiently and accurately within stipulated time
GS5. make timely decisions for efficient utilization of resources
GS6. read instructions/guidelines/procedures
GS7. write in English/any one language

ASC/N1440: Supervise team and evaluate performance

Description

This NOS is about supervising and evaluating the performance of the team to ensure higher levels of motivation and work completion within the organisational framework.

Scope

The scope covers the following :

- Supervise and evaluate performance of service team
- Complete documentation

Elements and Performance Criteria

Supervise and evaluate performance of service team

To be competent, the user/individual on the job must be able to:

PC1. set goals and targets as per organisational directives for service team

PC2. take quantified measures and create metrics to analyse the performance delivered by team

PC3. set tangible and achievable incentives for team members as per the goals and targets assigned

PC4. ensure and implement strict adherence of all activities performed by team members to organisational guidelines

PC5. monitor and supervise all activities performed by team members to achieve set goals

PC6. evaluate performance of team members on the designed measures and metrics as per the guidelines of the organization

PC7. assist and support reporting team members whenever necessary or applicable

PC8. perform all appraisal related process flow for team members, as per their performance parameters

PC9. ensure proper process flow and implement improvements as per the feedbacks and queries received from team members

Complete documentation

To be competent, the user/individual on the job must be able to:

PC10. document all Key Performance Indicators (KPIs) and metrics of team in the prescribed format of organisation

PC11. handover all the documents and appropriate support measures to human resources department for official records

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Standard Operating Procedures (SOP) of the organisation for appraisals, incentives, promotions and performance evaluation

KU2. operating procedures for query and problem reporting and their redressal in the organisation

KU3. framework and guidelines prescribed by the organisation for query, evaluation, appraisals and problem redressal

KU4. documentation requirements for each procedure carried out as part of job roles and responsibilities

KU5. institutional and professional code of ethics and standards of practice

KU6. documentation requirements for appraisals and other performance evaluations of various subordinate positions

KU7. process flow for performance evaluation, documentation and appraisals related with them

KU8. subordinate and reporting executives problems and queries and documenting it in the organisation's prescribed format

KU9. software or format such as MS Office and Management Information System (MIS) as prescribed by the organization

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and interpret workplace related documentation

GS2. communicate using terms, names, grades and other nomenclature pertaining to the automotive trade

GS3. analyse and apply the information gathered from observation, experience, reasoning or communication to act efficiently

GS4. identify potential workplace problem and take suitable action

GS5. write in English/regional language

ASC/N1422: Manage Body Shop operations and team

Description

This OS unit is about supervising and managing the overall bodyshop operations including the repair and refurbishing of accidental vehicles.

Scope

The scope covers the following :

- Manage overall repair process and bodyshop operations
- Manage team and co-ordinate with stakeholders

Elements and Performance Criteria

Manage overall repair process and bodyshop operations

To be competent, the user/individual on the job must be able to:

PC1. monitor overall bodyshop operations, including the work on accidental vehicles

PC2. supervise the evaluation for damages of an accidental vehicle and provide a report to the insurance claim inspector

PC3. ensure that the scope of repair is documented and conveyed to the customer and insurance company

PC4. ensure that the team performs repair orders with efficiency, accuracy, and high quality, in accordance with dealership, insurance company and organisation standards

PC5. review work on all accidental vehicles and escalate in case of delay due to any reason

PC6. ensure adequate stocking of spare parts, used in the bodyshop, in coordination with the spare parts manager

PC7. supervise the maintenance of dealership-owned tools for various components/aggregates

Manage team and co-ordinate with stakeholders

To be competent, the user/individual on the job must be able to:

PC8. manage bodyshop team across various levels considering the volume of vehicles and profitability

PC9. identify workforce gaps amongst the mechanics and denter/painter team in carrying out various bodyshop related jobs

PC10. recruit trained person to carry out the overall repair process, including those of the accidental vehicles

PC11. allocate work to the supervisors/service advisors/mechanics/technical specialist as per the work requirement

PC12. evaluate performance of bodyshop team

PC13. ensure timely communication of incentive schemes and proper distribution of the rewards/incentives to the team

PC14. identify the training needs of existing/new employees of Bodyshop

PC15. ensure a fair distribution of work between team members as per their skills and experience

PC16. liaison with both internal and external stakeholders to ensure smooth functioning of Bodyshop operations

PC17. prepare periodic reports of Bodyshop operations and team performance

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. safety requirements for equipment/machinery required for the safe functioning of the bodyshop

KU2. SOPs of the organisation/dealership for inspection, repair and refurbishment of vehicles

KU3. SOPs for repair, refurbishment and replacement of various auto parts/aggregates

KU4. the technical specifications of various OEM vehicular products as well as those manufactured by the competitors

KU5. documentation requirements for each procedure carried out as part of roles and responsibilities regarding the repair, refurbishment and replacement of the vehicles across various job roles in a workshop

KU6. safety and health policies and regulations for the workplace as well as for automotive trade in general

KU7. how to keep records and ensure the services are performed as per the customer requirements

KU8. the basic technology used in the overall functioning of various components/aggregates

KU9. fast and slow moving vehicle body parts

KU10. periodic maintenance and calibration of the repair tools and equipment

KU11. how to motivate the team for maximum output

KU12. various processes in body repairs and painting

KU13. skill requirements for painters and body repair team

KU14. how to create and review the Key Result Area (KRA) of each employee

KU15. organisational policy and criteria for incentive schemes to the employees

KU16. how to train and provide guidance to the Bodyshop employees/staff in all matters relating to the overall automotive and repair, refurbishment of components/aggregates in the OEM vehicle

KU17. the co-ordination required with the workshop personnel to ensure timely delivery of the vehicle reporting to the Bodyshop including those for any major or minor accidental work

KU18. organisational and professional code of ethics and standards of practice

KU19. how to create regular reports on service and workshop performance on the basis of the vehicles attended by the workshop

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and interpret workplace documentation

GS2. write in English and at least one regional language

GS3. operate computer to accomplish basic tasks

GS4. acquire new information, knowledge and skills

GS5. flow of information within the organization, whether formal or informal and verbal or written

GS6. interact with others in a professional and courteous manner

GS7. identify achievable goals to develop necessary strategies

GS8. plan work according to the daily operations, required schedules, locations and time management policies

GS9. take appropriate and timely decision as per the urgency of the task

GS10. use logic and reasoning to identify the strengths and weaknesses of the others

GS11. identify all key requirements of the subordinates

GS12. motivate stakeholders of the organization to bring forth a desired behaviour or response from them

GS13. perform crisis management to deal with crises in a manner that minimizes damage

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.

2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.

3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.

4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).

5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.

6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(**Please note**: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.

Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
