ELE/N3195: Customer Interaction and Service Support

Description

This NOS is about interacting with customers to understand their needs, provide effective service support, and ensure customer satisfaction.

Scope

The scope covers the following :

- Introduction and Interacting with customer
- Suggest possible solutions

Elements and Performance Criteria

Introduction and Interacting with customer

To be competent, the user/individual on the job must be able to:

PC1. Describe the role and responsibilities of an Assistant Technician – TV; explain the basic structure and working principles of modern televisions including LED, QLED, OLED, and Smart TVs, and identify key employment opportunities in the consumer electronics service industry.

PC2. analyse the details of customer complaint registered at customer care or installation schedule and connect with the customer use the mobile CRM apps to confirm problem telephonically and fix time for visit

PC3. collect appropriate tools, parts, relevant reference sheets, manuals and documents

PC4. visit the customer premises as per the scheduled date and time for service as per the requirement

PC5. check about warranty status of appliance and annual maintenance contract

PC6. gather detailed information pertaining to age of appliance, status of upkeep, symptoms and history of problems in the appliance

PC7. provide information to the customer about the warranty and problem in detail along with the precautions to be taken in order to avoid recurrence of problem

Suggest possible solutions

To be competent, the user/individual on the job must be able to:

PC8. suggest possible solutions with the time required, costs involved and methodology for servicing

PC9. seek customer’s approval on further action

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Understand the basic construction, operation, and components of modern TVs such as LED, QLED, OLED, and Smart TVs.

KU2. Know the standard procedures for logging and analyzing customer complaints through mobile CRM or service applications.

KU3. Understand company policies related to warranty, AMC (Annual Maintenance Contract), and customer communication protocols.

KU4. Know how to identify required tools, parts, and reference manuals for troubleshooting and servicing tasks

KU5. Understand customer service ethics, communication etiquette, and safety standards during field visits.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Communicate effectively and courteously with customers to understand issues and explain solutions clearly.

GS2. Use mobile CRM applications and digital tools to record complaints, confirm service schedules, and update service status.

GS3. Apply problem-solving skills to assess appliance issues and propose appropriate technical solutions.

GS4. Demonstrate professionalism and time management while visiting customer locations as per schedule.

GS5. Maintain a positive attitude, build customer trust, and ensure satisfaction through transparent and ethical communication.

ELE/N3102: Install and repair TVs

Description

This unit is about installing the newly purchased TV set, identifying the fault and fixing the same at customer location and make it ready to use.

Scope

The scope covers the following :

- Remove packaging and check accessories
- Install the TV and check functionality
- Repair dysfunctional TV
- Confirm functionality of the repaired unit
- Communication, Coordination, and Safe Work Practices

Elements and Performance Criteria

Remove packaging and check accessories

To be competent, the user/individual on the job must be able to:

PC1. remove the packaging of the appliance delivered at the customer location

PC2. verify that the product matches the customer's order with all supporting accessories

PC3. check the availability of all tools and fitments for the installation

PC4. clear up the packaging material waste and dispose as per company’s norms

Install the TV and check functionality

To be competent, the user/individual on the job must be able to:

PC5. seek customer's input of placement of TV

PC6. measure length from the floor and the sides of the wall for drilling holes (if applicable)

PC7. attach mounting brackets at the back side of the TV in case of wall mounting

PC8. insert anchors into drilled holes, concealing necessary wires and connect from the nearest power supply

PC9. install the TV unit on appropriate stand/platform/wall mount while maintaining appropriate distance from the floor and walls as per instruction manual

PC10. plug in the power supply and demonstrate the features, utility of the TV set/remote control

PC11. educate customer on proper operation, precautions and maintenance procedures to be taken

Repair dysfunctional TV

To be competent, the user/individual on the job must be able to:

PC12. diagnose the fault in the unit as per customer interaction and initial inspection like power supply module etc.

PC13. ensure that the fault is internal before disassembling the unit

PC14. unplug the power supply and any other equipment, if connected

PC15. remove the TV from the wall

PC16. remove the screws attached to the mounts and separate the rear cover from the system

PC17. examine various modules to locate exact fault

PC18. discharge any large capacitor and the charge stored in the cathode ray tube before diagnosis

PC19. check the fuse to ensure that the capacitor has not blown off and follow the current path to identify the fault

PC20. interpret instructions manual accurately to correlate the symptoms indicated with exact problem

PC21. send to factory for in depth diagnosis, if problem cannot be identified at site

PC22. repair/replace the internal components (e.g., screens, circuits, power boards). component at location, if the fault identified is due to damage of parts like fuse, PCBs etc..

PC23. schedule next appointment if the parts like picture tube can't be replaced on site

PC24. make necessary arrangements if the TV is required to be transported to service centre

PC25. reassemble the unit to check that all the modules of the unit are working as per specifications

Confirm functionality of the repaired unit

To be competent, the user/individual on the job must be able to:

PC26. demonstrate functionality of the unit to the customer

PC27. provide information to the customer about cleaning procedures and precautions to be taken in order to avoid recurrence of problem

PC28. complete all documentation procedures for complaint closure

PC29. collect necessary payments from the customer

Communication, Coordination, and Safe Work Practices

To be competent, the user/individual on the job must be able to:

PC30. Communicate clearly with customers and team members to understand service needs and provide updates.

PC31. Coordinate efficiently with colleagues to manage tasks and share technical information

PC32. Follow safety guidelines, use PPE, and handle tools/equipment properly to prevent hazards.

PC33. Practice resource conservation and responsible disposal of e-waste as per environmental standards

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Understand the standard procedures for unpacking, inspecting, and verifying appliances and accessories as per company guidelines.

KU2. Know installation methods for wall-mount and stand-mounted TVs, including correct height, alignment, and wiring safety practices.

KU3. Understand the internal components of different TV models and common faults in power supply, display, and PCB circuits.

KU4. Know how to interpret technical manuals, circuit diagrams, and troubleshooting guides for accurate fault diagnosis.

KU5. Understand workplace safety standards, PPE usage, and procedures for safe e-waste disposal and resource conservation.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Communicate politely and professionally with customers while explaining installation or repair processes.

GS2. Demonstrate precision and attention to detail in installation, wiring, and alignment to ensure functionality and aesthetics.

GS3. Apply problem-solving skills to identify and repair faults in TV units efficiently and accurately.

GS4. Use measuring tools, electrical testers, and power tools safely and effectively during installation and maintenance tasks.

GS5. Maintain documentation, coordinate with team members, and ensure timely service completion following company standards.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

KU10. how to compute income and expenses
KU11. importance of maintaining safety and security in financial transactions
KU12. different legal rights and laws
KU13. how to operate digital devices and applications safely and securely
KU14. ways to identify business opportunities
KU15. types of customers and their needs
KU16. how to apply for a job and prepare for an interview
KU17. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. communicate effectively using appropriate language
GS2. behave politely and appropriately with all
GS3. perform basic calculations
GS4. solve problems effectively
GS5. be careful and attentive at work
GS6. use time effectively
GS7. maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.

2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.

3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.

4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training centre (as per assessment criteria below).

5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training centre based on this criterion.

6. To pass the Qualification Pack, every trainee should score a minimum of 50% of aggregate marks to successfully clear the assessment.

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(**Please note**: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Declarative Knowledge	Declarative knowledge refers to facts, concepts and principles that need to be known and/or understood in order to accomplish a task or to solve a problem.
Key Learning Outcome	Key learning outcome is the statement of what a learner needs to know, understand and be able to do in order to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application).
OJT (M)	On-the-job training (Mandatory) trainees are mandated to complete specified hours of training on site
OJT (R)	On-the-job training (Recommended) trainees are recommended the specified hours of training on site
Procedural Knowledge	Procedural knowledge addresses how to do something, or how to perform a task. It is the ability to work, or produce a tangible work output by applying cognitive, affective or psychomotor skills.
Training Outcome	Training outcome is a statement of what a learner will know, understand and be able to do upon the completion of the training.
